PAVED Arts is a non-profit, community-based organization that exists to advance knowledge and practices in what we call the 'PAVED Arts' arts: photography, audio, video, electronic and digital. We help artists and independent producers make and exhibit their work. We operate an access centre for media production and post-production, offer training and professional development for media artists, and bring examples of cutting edge work in the 'PAVED Arts' arts to Saskatoon audiences through our free gallery exhibitions and public screenings. Workshops and exhibitions are always open to the public. To access our production facilities and equipment, all that we require is that you become a Producing Member, and that you use the facility for only your own independent, non-commercial projects. We offer our members subsidized rental of equipment far below market rates, training, mentorship, and above all an environment for free expression, creative thought and personal growth.
